

Corepoint Health Achieves Number 1 Position for Interface Engines Market Segment in 2009 Top 20 Best in KLAS Awards Report

PLANO, Texas, January 11, 2010 – Corepoint Health, a healthcare integration software leader, today announced that [Corepoint Integration Engine](#) has achieved the Number 1 position in the Interface Engines market segment of the *2009 Top 20 Best in KLAS Awards: Software & Professional Services* report.

The *2009 Top 20 Best in KLAS Awards: Software & Professional Services* is a summary of performance data collected over the past 12 months from healthcare professionals and IT Executives. Included in the report is a ranking of the top vendors overall, as well as a ranking of the top vendors in key areas of performance.

“We are honored to be recognized by the many hospitals, radiology practices, labs, clinics and a wide variety of other providers surveyed by KLAS in achieving the number one position in the [interface engine](#) segment. Delivering exceptional customer service is central to our operating principles as is producing products that are a valuable part of an integrated healthcare workflow,” stated Phil Guy, CEO, Corepoint Health.

Guy continued, “Through the years, Corepoint Health has demonstrated a consistent approach of listening closely to customer requirements and then delivering proven, innovative software to meet them. We are pleased with the ratings and feedback our customers have given us, and we will work constantly to improve in offering the best interface engine solution and services for our customers and the healthcare industry. With the forthcoming changes driven by [HITECH and Meaningful Use](#) requirements, it is even more important for healthcare providers to have an integration platform to rely on confidently. Our objective is to vigorously support them with proven software solutions.”

In the *2009 Top 20 Best in KLAS Awards: Software & Professional Services* report, KLAS measures a vendor’s performance based on product quality, implementation services, customer support, and overall vendor relationship experience.

“Developing high performance software solutions to deliver [integrated healthcare](#) and enhanced operations is our sole focus. Our objective is to build innovative, robust, and practical healthcare software products which produce real results for our customers every day,” said Dave Shaver, CTO, Corepoint Health. “We thoughtfully work to understand and gain customer feedback on the products we develop and then deliver the highest quality solution to meet their requirements. We are grateful for the confidence placed in us, and we will work hard to continue to earn it.”
